**DETAILED ACTION*****Claim Objections***

Claim 17 is objected to because of the following informalities: Claim 17 depends from claim 12 that was cancelled. Appropriate correction is required.

***Claim Rejections - 35 USC § 102***

The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(b) the invention was patented or described in a printed publication in this or a foreign country or in public use or on sale in this country, more than one year prior to the date of application for patent in the United States.

Claim 13, 21, and 27 are rejected under 35 U.S.C. 102(b) as being anticipated by

Clark.

Clark discloses a flying disc comprising a flight deck section having a plurality of contoured features, each of the contoured features defines a cavity within the flight deck section; a rim integral with the flight deck section; and each of the contoured features protrude beneath a plane defined by the flight deck section, and at least two of the contoured features are equidistantly spaced from the central axis of the disc as measured in the radial direction from the central axis.

***Allowable Subject Matter***

Claims 14, 16-18, 22-26, and 28-32 are objected to as being dependent upon a rejected base claim, but would be allowable if rewritten in independent form including all of the limitations of the base claim and any intervening claims.

***Response to Arguments***

Applicant's arguments with respect to the claims have been considered but are moot in view of the new ground(s) of rejection.
